spare parts for steam turbines

# POWER EQUIPMENT

Comprehensive execution of projects for delivery  
of spare parts and modernization units for power stations

# SINCE 1992 SERVICE-SKLAD COMPANY

has been successfully executing comprehensive projects in the sphere of equipment delivery for power industry's repair programs

Joint Stock Company  
**«SERVIS-SKLAD»**  
spare parts for steam turbines

Our company specializes in deliveries of units and spare parts for equipment produced by the following manufacturers:

## **Power Machines Corporation**

Leningradsky Metallichesky Zavod (LMZ)  
Turbine Blades Plant (ZTL)  
Kaluga Turbine Plant  
Electrosila Plant  
Krasny Kotelshchik Taganrog Boilermaking Plant

**Turboatom (Kharkiv Turbogenerator Plant)**

**Ural Turbine Works (UTMZ)**

**Proletarsky Plant**

TODAY

# WE OFFER THE FOLLOWING PORTFOLIO OF PRODUCTS:

Joint Stock Company  
**«SERVIS-SKLAD»**  
spare parts for steam turbines

# 01

## SPARE PARTS FOR STEAM TURBINES

- ◉ Blade sets
- ◉ Impellers
- ◉ Nozzle sections
- ◉ Guide vane assemblies
- ◉ Membranes
- ◉ Automatic shutter valve boxes
- ◉ Stator assemblies
- ◉ Rotor assemblies

- ◉ Bearings, liners and oil pumps
- ◉ Steam distribution units
- ◉ Control units
- ◉ O-rings, springs
- ◉ Modernized units and fasteners

TODAY

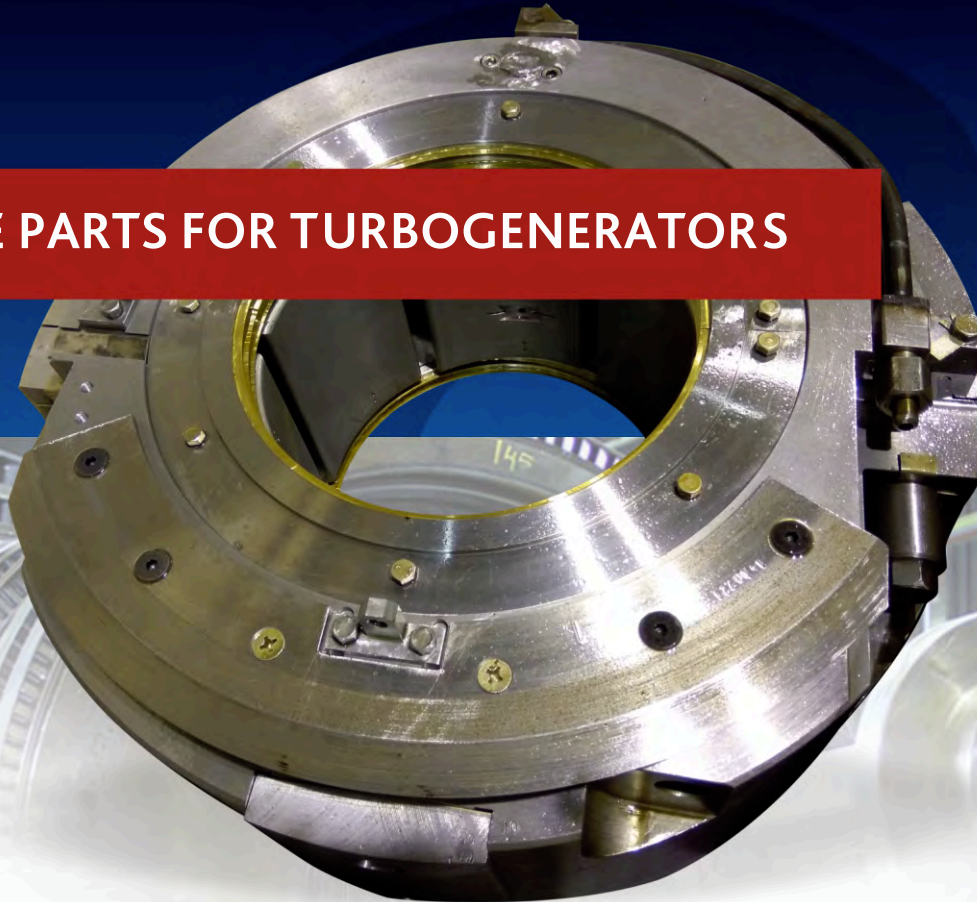

# WE OFFER THE FOLLOWING PORTFOLIO OF PRODUCTS:

Joint Stock Company  
**«SERVIS-SKLAD»**  
spare parts for steam turbines

# 02

## SPARE PARTS FOR TURBOGENERATORS

- Shroud rings
- Brush gear assemblies
- Slip rings
- Stator windings
- Rotor windings
- Banding insulation
- Pressure accumulators
- Current lead bolts
- Oil seals for shafts

TODAY

# WE OFFER THE FOLLOWING PORTFOLIO OF PRODUCTS:

Joint Stock Company  
**«SERVIS-SKLAD»**  
spare parts for steam turbines

# 03

## AUXILIARY / HEAT EXCHANGE EQUIPMENT FOR STEAM TURBINES

- Heat exchangers
- Piping systems
- Oil coolers
- Fire-resistant fluid coolers
- Ejectors
- System water heaters

- Filters and valves
- Rotors
- Inner cases and other spare parts for LMZ electric and turbine driven feed pumps
- Steam turbine rotors and couplings

Joint Stock Company

spare parts for steam turbines

## OUR ADVANTAGES

### 01 FLEXIBLE COOPERATION CONDITIONS

We offer a favourable grace period to our Customers and customized project financing programs

### 02 MULTI-STAGE PRODUCT QUALITY CONTROL AND PRODUCTION EXPEDITING

We offer full-cycle monitoring during manufacture of ordered spare parts, including chemical composition and mechanical properties of workpieces, production time monitoring, inter-stage quality control and final incoming inspection including geometry

### 03 COMPREHENSIVE APPROACH

Thanks to our experience, business contacts and efficient cooperation with manufacturers, research institutes and industry companies, we provide comprehensive solutions and help to optimize Customer's costs

### 04 HIGH MOBILITY AND QUICK RESPONSE

Our company practices a project-oriented approach which is reflected in the structure of our order management system. Each project is headed by one manager only who uses both professional and material resources of our company to satisfy the needs of each Customer in a well tailored manner

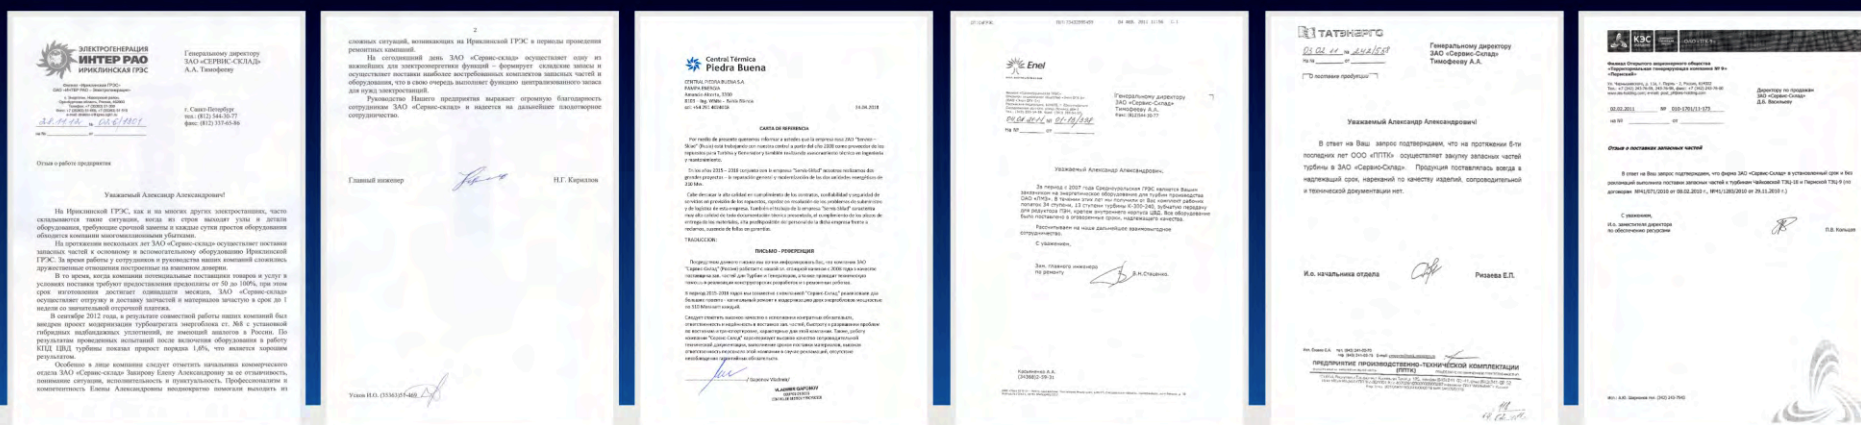

### 05 WIDE RANGE OF PARTS IN AVAILABLE STOCK

We maintain a permanent available stock of the most demanded spare parts for emergency needs of power stations

# FOR 26 YEARS OF SERVICE IN THE POWER INDUSTRY, OUR COMPANY HAS PROVEN ITSELF

as a reliable partner and supplier of high quality products for emergency and scheduled repair programs. We have, inter alia, completed a series of comprehensive deliveries for major overhauls of power generating units in the scope equivalent to the annual utilization of National Regional Plant's production capacities.

## Inter RAO Iriklinskaya TPP

- «Iriklinskaya TPP, like many other power plants, often faces such situations when assemblies or parts of equipment requiring urgent replacement fail, and each day of downtime leads to multi million losses incurred by the company. Meanwhile, potential vendors of products and services require 50 to 100% advance payments, and production time amounts to 11 months.»

## Enel

- «Since 2007, Sredneuralskaya TPP has been ordering power equipment for LMZ turbines from your company. Over this period, we have purchased from you the 3-4 stage blade set, K-300-240 turbine 13-stage blade set, gear for electric feed pump gearbox, and high pressure cylinder inner case fasteners. All the equipment is of good quality and was delivered within the contracted timeframes.»

## CENTRAL PIEDRA BUENA

- «We hereby inform you that Service-Sklad, Russia, has been cooperating with our power plant since 2008. Service-Sklad delivers spare parts for turbines and generators, and provides technical assistance in R&D and repairs. In 2015-2016, we jointly with Service-Sklad completed two major projects: major overhaul and modernization of two 310 MW power generating units.»

# WE DELIVER OUR PRODUCTS TO 15 COUNTRIES WORLDWIDE
